Once open, the resort will offer a full-service spa, multiple dining venues led by Chef Chris Viaud and luxury accommodations on 3,400 feet of private shoreline. The property is designed to host weddings and special events year-round.

The property will offer 96 oversized, custom-designed guest rooms and 18 suites. More than 70% of the rooms offer direct views of the lake, while others overlook lush woodlands, the company said. **NHBR**
